

## 33rd World Congress on Pharmacology Conference Announcement

Ilie Vasiliev \*

World Academy of Medical Sciences, Netherlands, Republic of Moldova

### Awards

[Pharmacology](#) is a branch in science concerned with the effects of the drugs on living organisms (pharmacodynamics) and the effects of living organisms with the drugs (pharmacokinetics). This subject embodies drug composition and properties, interactions, toxicology, therapy, and medicinal uses such as application and antipathogenic capabilities. Pharmacology is subdivided into two categories as mentioned above, pharmacodynamics and pharmacokinetics. [Pharmacodynamics](#) deals with chemical interactions with body/cell receptors. Pharmacokinetics, on the other hand, deals with the four stages of chemicals passing through the body: absorption, distribution, metabolism and excretion”.

Pharmacology Congress 2020 supported by the organizing committee network of renowned scientific and professional expert such as Karen Mulkijanyan, Tbilisi State Medical University, Georgia, Shanaz Tejani-Butt, University of the Sciences, USA, Alireza Heidari, California South University (CSU), USA, Ming Lei, UNIVERSITY OF OXFORD, U.K, it provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Pharmacology.

#### Expert Level (Scientific Service Achievement Award):

The Achievement award is designed to recognize sustained, exceptional performance and/or significant contributions of the individuals who have made splendid contributions in Pharmacology. Scientific Service Achievement Award is one of the most distinguished awards in the conference. The applicants should have minimum of 20+ years of experience in the relative field including performance or project goals above and beyond normal performance expectations in public or private sector. The applicants are expected to have a highly committed passion and should take lead in researching the current trends and developments towards the related subjects. The applicants can be nominated through online..

#### Professional Level (The Research Contribution Award):

The Research Contribution Award aims to recognized renowned professional for their excellence in research in the area of Pharmacology to the advancement of knowledge in their own fields with significant impact on public or private sector. The applicants should have 10+ years in area of Immunology with their outstanding achievements. Part-time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. The applicants can be nominated through online.

The Pharmacology services global market is expected to grow at high single digit CAGR to reach \$14,343 million by 2025. Over US\$78.7 Million worth of projected demand in the region will come from Rest of Europe markets.

Global Pharmacology Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... And Many More..!!!
