

Advanced Materials

Dongyang Li *

Chemical and Materials Engineering 12-356 Donadeo Innovation Centre For Engineering University of Alberta Edmonton, Alberta, Canada

Awards

Conference Series LLC Ltd invites you to find a path to carve out a near-to-perfect platform where people like you and us can get together, stand together and discuss these possibilities.

Advanced Materials has been finalized in Brisbane, Australia and will initiate its journey towards its aim of unifying people from different corner of the globe with the theme "Advanced Materials for Better Future : Characterization Techniques".

Expert Level:

Expert level Award is contributed to who have presented their work in a passionately and highly skilfully on the arena of Advanced Materials and Nanotechnology. It is the most exalted and distinguished award of the entire conference and it is noted as a Scientific Service Achievement award. The entry level eligibility for this award is that one should have a minimum of 20+ years of experience in the respective area public or corporate Sector. This award is purely dedicated to the one who engrosses the attention of the audience with his/her fascinated and the current challenging research towards the subject. Anyone can propose this award through online.

Scholar Level:

This class offers to the Young and economical students, Young researchers, forthcoming scientists, masters having 10+years analysis expertise within the domain of Advanced Materials and engineering science. The most theme of this conference is to bring the international professionals and specialists sitting underneath the common roof to expand their network. The time length underneath this class is 25-20 minutes of speech on the tutorial and research project topics supported the difficult sessions. we will directly nominate this award through on-line

Women_Scientist:

Our conference has advocate to encourage the ladies scientists within the science and technology field. Through this endeavour of this award, conjunct efforts are created to administer girls a powerful foothold into the scientific profession. Women area unit a very important section of the hands additional notably within the science and analysis. Our main motive is to uplift the inner hidden talent and data to pursue the Advanced Materials and engineering science analysis in frontier areas of science and analysis. we have a tendency to welcome all the ladies students, scientists, researchers from Universities/industries who area unit having minimum of +10 years of expertise to affix during this forum. we have a tendency to

wholeheartedly welcome all the gifted and dynamic girls professionals. Anyone will propose this award through on-line

Outstanding_speaker:

This award is recognizing for a private who will gift, strategies, and schemes that area unit enforced to reinforce long excellence in medicine. we will directly nominate this award through on-line.

Best_Keynote_Speaker:

This class of award encourages for best keynote speakers who can gift their latest researchers, industrial project concepts, schemes, that will be permissible to enhance the long-term excellence within the arena of Advanced Materials and engineering science. This may be benefited to you and your business. Contemplate taking this advantage of the chance of this award. Meriting of this award is going to be judged by the audience through on-line.

Best_Poster_Presentation:

Student Poster Competition is organized at Conference, to encourage students and up to date graduates to gift their original analysis. All accepted abstracts are going to be bestowed at the poster sessions throughout the conference. Conference Series aims at setting a platform for all the budding scientists and researchers to gift their period of time work and share their views and aspects associated with the theme of the conference. You'll nominate somebody meriting of the award through on-line

Outstanding_Thesis:

This award is recognizing for Masters/Ph.D./Post doctor's degree thesis work Presentation who can gift their comes and thesis that are enforced to enhance long excellence within the field of Advanced Materials and Nanotechnology. you'll nominate meriting of the award through on-line. You'll nominate somebody meriting of the award through on-line.
