## New Visions and Inventions in Stem Cells and Regenerative Medicine

Sujata Law \*

Dept. of Biochemistry and Medical Biotechnology Calcutta

After the successful completion of “5<sup>th</sup> Stem Cell & Regenerative Medicine” during **June 14-15, 2019** in **Montreal, Canada**. We feel honoured to welcome you to [6th Annual Congress on Cell Science, Stem Cell Research & Regenerative Medicine](#). The congress is scheduled to happen on **November 16-17, 2020** at the beautiful city of **Paris, France**. This Stem Cells 2020 will give you an exemplary experience and enormous ideas in the research field.

[Stem Cells 2020](#) provides you a great networking with peer network. Also, comprise, 10+ Keynote Speaker Session, 50+ speaker faculty over 2 full days sharing evidence Based, 5+ Workshops, 13 Interactive sessions, Mixture of Health care units and Academia Delegates, Networking provide a dedicated forum for the advancement, execution, and exchange of information about Stem Cell. Professionals giving a chief specialized gathering to detailing and finding out about the most recent new era advancements created over the span of time alongside examining their applications. Generally acclaimed speakers, the most recent techniques, methodologies, and the most breakthrough updates in Stem Cell are indications of this meeting.

The perspective of the [Stem Cells 2020](#) is to establish research works for people to understand how the technologies in Stem Cell get advanced and how the field get emerged in recent years.

The sessions to be discussed in the conference include [Stem cells](#) , [Stem cell therapy](#) , [Stem cell renewal](#) , [Stem cell and regenerative medicine](#) , [Advances in stem cell and their niches](#) , [Therapies targeting cancer stem cells](#) , [Diseases and Stem Cell Treatment](#) , [Stem Cell and Molecular Medicine](#) , [Stem Cell Transplantation](#) , [Stem Cell Processing](#) , [Stem Cell Biology](#) , [Cancer Stem Cells](#) and many more.

The participants who are expected to attend the conference are Eminent Scientific Professionals in Stem Cells and Pharmacologist, Faculty (Professors, Associate Professors, Asst. Professors), Cell biology and Stem cell researchers, Oncologists, Academicians, Physicians, Academic scientists, Radiologists, Chemo therapists, Industry professionals, Head of the departments, Directors, Clinical Professionals, Young researchers,

Postgraduates, Trainees and all stem cell biomarkers Researchers. It also gives the best opportunity to the Business professionals to represent their company

The people who have missed attending the past Stem Cell Conferences are most welcome to present your research ideas in [Stem Cells 2020](#). This conference will help you to improve networking with the eminent people in the Pharmaceutical field.

In the previous Conference “5<sup>th</sup> Annual Congress on Stem Cell & Regenerative Medicine”, we had sessions on various interesting sessions/tracks. Some of them were Stem Cell Technologies, Novel Stem Cell Systems, Smart Stem Cell Systems, Stem Cell Equipment and Machinery, Stem Cell and Development etc. The Organizing Committee worked really hard to make the event great. Two of the most eminent Organizing Committee Members were Dr. Alain L Fymat who is the President/CEO and Professor in International Institute of Medicine and Science, USA and Dr.Yavuz Silay who is the Chairman of the Board, Turkey.

After this Successful Event, We are heading towards the Stem Cells 2020 and will hope better no. and quality of presentations, Speeches, workshops, exhibitions, and Posters.

Our organizing committee members would like to invite all the potential pharmaceuticals people to participate in the Stem Cells 2020 to develop and enhance the field of Pharmaceuticals and Stem Cell Technologies.

Make your footprint in the Stem Cells 2020 to explore the Research and Advanced techniques in Stem Cell Systems in Paris, France.
